Team members:

- Artem Chernii
- Temuri Benidze
- Javidan Khankishiyev

This project is a simple community forum where users can create threads, reply, upvote posts, and report content. The website layout is optimized for various screen sizes. The pages have a structure: header, main content, and footer. The header section contains the logo, navigation, toggle themes, and sign in/up. The main page provides search, as well as links to popular categories and threads. The Imprint page has contact and disclaimer sections.

### Logo

### Colors

There are 2 themes:

Light:

- Primary color: #FFFFFF (white);

- Accent: #F5F5F5 (light gray);
- Text color: #000000 (black);
- Additional gray accents: #E0E0E0, #333333, #666666.

Dark:

- Primary color: #000000 (black);
- Accent: #1A1A1A (dark gray);
- Text color: #FFFFFF (white);
- Additional gray accents: #CCCCCC, #333333, #999999.

## Font

The primary font is Segoe UI, and Inter is used as a sans-serif backup.

Font sizes for text: 18px (large), 16px (base), and 14px (small).

Font sizes for headings: 20 - 42px.
